# Aylesbury Road, Aston Clinton Landscape Masterplan

Proposed feature shrub planting and bollards, creating a feature on the entrance into the open space

Proposed open spaces with large feature tree planting creating a legible landscape and linking key features throughout the development. Bollards along the periphery create a safe environment for pedestrians within the open space

Existing trees and understorey planting retained within landscape buffer

Proposed new large tree planting to provide long term replacements for mature Ash trees

Proposed rear garden tree planting to be small decorative trees suitable for their locations

Proposed wetland meadow to be Emorsgate EM8 wetland meadow mix

Existing boundary hedgerow retained and supplemented with additional native planting

Proposed shrub planting to unit frontages softens the built form and creates personalisation to each unit

Proposed bird and bat boxes within the existing and proposed native vegetation within the development

Existing boundary hedgerows retained and supplemented with additional native planting

Proposed ponds with native aquatic planting enhancing biodiversity within the development

Proposed wildflower grassland

Proposed native trees underplanted with bulbs to include fruiting species

Proposed native tree and hedge planting within open space, connecting with existing and proposed native planting along boundary. This will increase connectivity of ecological habitats within the development and the wider landscape

Proposed street tree planting to be fastigiata in form to ensure visibility for vehicles and pedestrians
